

Monitor physical security and the environment

NetBotz™ protects IT infrastructure against environmental threats and unauthorized access, preventing unexpected downtime.

Monitor and protect with certainty

Environmental and security monitoring of the IT space is crucial to ensure safety, protect sensitive data, maintain regulatory compliance and enhance operational performance.

Environmental monitoring

NetBotz minimizes **costly IT downtime** caused by:

- Unmanaged UPS systems
- Human error
- Cybercrime
- Water, heat or cooling failure
- Weather related

Security monitoring

Monitor and protect at the rack level

- Live video
- Video storage
- Rack access control

Scalable solution

NetBotz connects to **EcoStruxure™ IT's Data Center Expert** or **IT Expert** allowing for easy deployment, standardization, mass configuration, and "single pane of glass" management of the connected equipment.

Life Is On Schneider Electric

NetBotz Solutions

In today's dynamic IT environment more and more IT managers need remote visibility into their critical infrastructure. Visibility through continuous monitoring ensures resiliency and security. NetBotz is the industry's most comprehensive solution for IT security and environmental monitoring.

NBRK0250A

NetBotz Rack Monitor 250A

The cost-effective and essential sensing, access control and instant alerting for IT environments of all sizes where IT rack space is available. Supports up to 42 wired sensors, 47 wireless sensors and badged access for 2 rack doors.

NBRK0750

NetBotz Rack Monitor 750*

Integrated surveillance, sensing, access control and instant alerting for IT environments of all sizes where IT rack space is available. Supports up to 4 HD cameras, 78 wired sensors, 47 wireless sensors and badged access for 26 rack doors.

NBWL0755

NetBotz Wall Monitor 755*

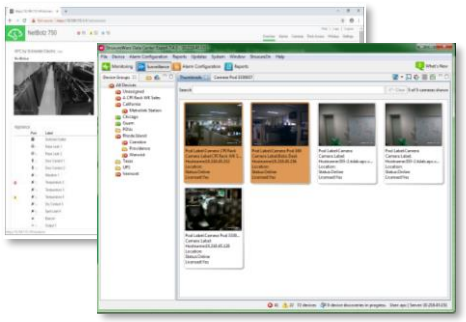

Integrated surveillance, sensing, access control and instant alerting for IT environments of all sizes where IT rack space is unavailable. Supports up to 4 HD cameras, 16 wired sensors, 47 wireless sensors and badged access for 2 rack doors.

**NetBotz 750 and 755 appliances shipped to EU regions under enforcement of 2014/53/EU do not support wireless*

Scale quickly: Connecting NetBotz an Data Center Expert solutions together

EcoStruxure IT Data Center Expert enables you to connect multiple NetBotz solutions together for:

- Monitoring / Management from "single pane of glass"
- Mass configuration e.g., trap receivers, alerts, thresholds
- Wide-scale physical security surveillance
- Standardization – pushing out across multiple devices, multiple sites, same configuration
- Reporting multiple devices, large timeframe, record-keeping

Security reinforcement
